Sidewalk Inventory

Unsatisfactory

Unsatisfactory with Gaps

Poor

Poor with Gaps

Fair

Fair with Gaps

Good

Good with Gaps

Good	minimum cracking, no wide gaps in surface, no deflections > 1/2"
Fair	some cracking present, deflections of 1/2" or less, minimal gaps in surface < 1/2" wide, minimal weed growth
Poor	sidewalk cracking may be extensive, deflections between 1/2" and 2"; surface gaps present at 1/2"; may be some overgrowth of grass and weeds in surface of walk (up to 25% of area)
Unsatisfactory	deflections greater than 2", overgrowth of grass and weeds such > 25% of surface could not be evaluated

Sidewalks are generally rated block to block. Gaps are noted when the sidewalk is not continuous within the block.
